Collaboration Ideas and Thoughts

- **Classify**
  - Data: Stream temperature network in dev (NFS, R&D, external)
  - Concept updates: FS, academia (e.g., this workshop)
- **Prioritize**
  - Public, interest groups
- **Develop**
  - Usual partners (interest groups, public)
  - R&D scientists, R&D statisticians
  - Assess your knowledge – make sure it is appropriate and fully informed; consider qualitative versus quantitative
  - Assess your partners – make sure they can deliver

Collaboration, Part II

- **Implement**
  - Usual partners
  - Academia (courses, class projects, extension)
  - Nonprofits such as Earthwatch
  - Citizen science
  - Kickstarter

- **Track** – couldn't think of any collaboration

- **Monitor and Verify**
  - FIA, R&D statisticians, …
  - Academia (courses, class projects)
  - Citizen science

Collaboration, Part III

- **Building tools**
  - Academia (class projects)
- **Connecting and communicating**
  - Natural Inquirer
  - Public web site (data, DSS, pictures, progress reports, …)
    - Good start; needs updates, more information, better organization

Collaboration opportunities abound!
